EAGLETEX was established in 1999, the head office is in Taiwan. Following the trend of all over world, we set-up branch office in Vietnam in order to satisfy customer's different demands. Our Vietnam office is located at Ho-Chi-Minh City, hence, we have very strong connection between Taiwan, Vietnam and all our factories. Quick response, high efficient and good services are our company's aim. The main products in Taiwan are synthetic items, we are running all kinds of regular fabrics, high gauge, varieties stretch fabrics, jacquard knit, yarn dyed (feeder/engineering) stripes, space dyed, sublimation print, reflection print, embossed, and so on. Our products are suit for sportswear, outdoor wear, cycling with different functional finished such as quick dry, wicking, UV cut, anti-odor, anti-statics and anti-microbial treatment. Our Vietnam production has more strongly and competitive in cotton blend item like flexible fabric in cotton/spandex, rayon/spandex which are suitable for fashion and lady's brand. We are running volume quantity for CVC & TC fabrics which suit for polo, T-shirt and casual wear. The advantage of Vietnam production based are "Offer competitive price", "Preferential duties to European Union", "TPP (Trans-Pacific Partnership). We treat ongoing development new products as our oriented. We pursuit to offer good quality, excellent interaction, efficiency respond and quickly delivery to all the customers.

- Fabrics For Board Shorts, Swim Trunk, Lifestyle, Wind Breaker, Down Jackets, Outwear, And Other Related End Goods.

Company Profile

Lucent Textile Co., Ltd. is established in 1991 in Taiwan. We are a professional fabric converter, developing both WOVEN & KNIT synthetic fabrics such as Polyester, Nylon, N/T and T/N Blends.

Combine with dyeing, printing, and unique finishing, these fabrics are widely used on board shorts, swim trunk, wind breaker, down jackets, outerwear, skiwear, and other related end goods.

Lucent is a proud long term supplier of traditional brands such as Polo, Tommy & Nautica for over 20 years. We also share close ties with Burton Snowboard, Oakley, Calvin Klein, and Brooks Brothers.

Up and coming brands with likes of Simms Fishing, Zumiez, Magpul, and Neff are also on our list of brands, just to name a few.

Our dedication on providing quality guaranteed fabrics over the years to our valued buyers have earned us a reputation of being a reliable supplier in the textile industry. We are committed to continue striving for producing higher quality fabrics.

Company Profile

Men-Chuen Fibre Industry Co., Ltd. was established in March 1987 and currently boasts capital of US$15.54 million. A renowned textile knitting, and dyeing & finishing manufacturer, Men-Chuen is also an important importer and exporter of textiles. Its headquarters is in Neihu District, Taipei City, and its knitting, dyeing & finishing, and logistics factories are located in Taoyuan.

In terms of revenue performance, Men-Chuen aims to improve its performance every year. Now, it has an annual revenue of more than US$99 millions and is ranked among the top 800 manufacturers in Taiwan. For a business that started from scratch, Men-Chuen's journey to achieving such outstanding performance was long and hard. The textile industry is a traditional industry, but it has escaped traditional industry setbacks and preserved the merits of traditional industries.

Major Products

- Jacquard Non-Sewing Engineer Woven
- Outwear & Sportwear Functional Fabrics

Company Profile

Merryson is a professional jacquard manufacturer. Our textile contains better 3D & layers appearance which is partly hidden and partly visible, that brings vivid motif to the customers. The customers' priority is to wear impressively & present their personalities. Merryson is getting challenges from the branded customers when we started business from Home-textile to Outdoor-textile. Some brands think that jacquard is too fancy, however, others combine their excellent design ability with us, and we have created several interesting jacquard weaving technics for their garments. A successful market leader is always willing to open their mind & to learn. We are looking forward to other brands to join our jacquard design territory.

Major Products

- Polyester Chip, Filament, Staple
- Woven Fabric, Knitting Fabric
- Film

Company Profile

Polyester fiber division of NAN YA PLASTICS CO., is a famous full-processing manufacturer of polyester filaments and staple fiber in the world. Vertical integration in different products contains polyester fiber, synthetic fabrics, polyester film, etc.

Established in 1967, the division had equipped with polymerization, spinning, and staple fiber facilities. Followed through the enterprise spirits "diligence, perseverance, frugality and trustworthiness" and "Inquire thoroughly into everything", the division has been constantly improving on procedures, upgrading qualities and innovating new products. Continuous innovation and expansion of supply quantities have made us become one of the biggest polyester manufacturers in the world. Furthermore, the qualities of polyester are the best and much better than other competitors.

Belief in international division of labor and perpetual operation, the production bases have been allocated USA, Vietnam, and Mainland China. Originally, vertical integration was just in polyester chips, filaments and staple fiber. Now it has expanded in functional fabrics (woven and knitted fabrics), polyester film, photo-resist film and high tenacity filaments for tire cord, conveyor and belts.

Major Products

- TPU Laminated Fabrics
- Weldable/Sealable Fabrics
- Waterproof Fabrics
- Airtight Fabrics

Company Profile

Thermoplastic Polyurethane Industry has been developed in Taiwan for several decades, however due to lack of qualified high bonding laminators, there was a big gap between the film makers and downstream manufacturers. Thus, a group of experienced people that came from textile, chemical and electronic industries gathered together to set up TOMLONG TECHSTILE CORP. to meet the growing demands from many application.

Being distinct from other laminators in garments fabrics, TOMLONG deeply involve in product design and finished product making. After working as the bridge between two fields for many years, our rich knowledge, quality technique and excellent service help us have earned good reputation among many famous brands in outdoor, sport, marine, automobile, medical, military industries and more. Now TOMLONG is not only specialized in high bonding TPU film lamination, but also is a total solution provider in composite material.

We have flexible manufacturing machines and QC inspection equipment to fulfill customers' need. We are able to laminate/coat diversified textiles such like Nylon, Polyester, N/T, Cotton, N/C, Recycled Yarns; Woven, Knitted or Nonwoven. Most of our laminated/coated fabrics are for waterproof or inflatable devices. About a half of our working partners are graduated from the universities and are always taking challenge, that make us being recognized as a technical oriented company.

filaweaving.org.tw

tsfa2@textiles.org.tw

Major Products

Tsfa Members Supply The Following Products:

Nylon Fabrics, 100% Polyester Suiting, 100% Polyester Fabrics For Lady Dresses, Acetate Fabrics, Rayon Fabrics, Modal® Fabrics, Tencel® Fabrics, Filament-Spun Interweave, Spandex (Elastane) Fabrics, High-Twist Fabrics, Jacquard Fabrics, Metallic Fabrics, Lining, Flocking Fabrics, Industrial Fabrics, Interior Fabrics, Yarn-Dyed Fabrics, Functional Fabrics, Coated & Laminated Fabrics, Tire Cords, Screen Mesh Fabrics, Bridal Dresses, Embroideries, Laces, Braids, Ribbons, Labels, Fastener Tapes, Neckties, Twisted Yarn, Textured Yarn, Shoelaces

Note: Modal® and Tencel® are the trademarks of Lenzing AG.

Company Profile

Founded in 1953, TSFA currently consists of 140 members the majority of whom are specialized in manufacturing woven cloth of man-made filament. Over 90% of the manufacture (including Nylon cloth, Polyester cloth, special cloth, and new-synthetic fiber woven cloth) is for export. Its wide and varied applications are in the production of garments for outdoor activities, snow coats, apparel linings, men's and women's jackets or suits or shirts, cover sheets, cloth for handbags and luggage, fire-retardant and bullet-proof products, anti-UV industrial items, and so many others.

With incessant effort going into the development of synthetic fiber and dyeing and finishing know-how, many TSFA members are known for business strategies that are notably centered around greening in every phase of manufacturing. This is how Taiwan's man-made filament weaving industry stays competitive as a purveyor of functional cloth of high quality at very competitive prices. Statistics-wise, Taiwan's exports of filament-weaving industry for 2015 amounts to over US$3 billions. That value also translates to 27% of the nation's total textile exports for the same period, which is US$10.8 billions. As Taiwan's filament-weaving industry is very much intent on technological development and continuous R & D, there will be more and more functional fabrics for apparel and industrial applications getting launched.
