Major Products

Knitted fabrics: Lingeries, Active wear, Shape wear, Casual wear, Baby & Kids wear

Company Profile

At BeBe Cotton, we have taken a major step in building a brand new dyeing mill focusing only on eco-dyeing. We also incorporate the AVITERA SE dyestuffs from Huntsman.

With AVITERA SE dyes, the dyeing and the washing-off process is required to operate at a maximum temperature of 60°C rather than the 90°C in typical dyeing process. Dye adsorption is very high and with only five percent or less unfixed dye needing to be removed, instead of the usual 15 to 30 percent, the number of rinsing baths to obtain the required fastness properties is greatly reduced. The combined result is a significantly reduced water and energy consumption and CO₂ emissions for the dyeing processes.

The heating and power of our new mill for the dyeing machine are supplied by steam and electricity from a co-gen power plant in the industrial park to achieve a maximum integration of energy. In addition, our machine was fueled by natural gas which produces less CO₂ compared with those using normal fuel oil. We warmly welcome your visit to our new mill and help to build a greener environment for the fabric industry.

Our major products are for lingerie fabric, shape wear fabric, skin comfort fabric (function), organic fabric (GOTS) and high gauge & fine cotton fabric.

Major Products

Oyster Recycle Tweeds, Performance Fabrics

Company Profile

Our company was established in 2010 with main focuses on R&D and marketing strategy. Hans Global Textile is a rapidly growing company. We developed several functional fabrics according to end users' demands. For example, due to the damage of the ozonosphere, human suffers from the fear of skin cancer; our company therefore has developed several shirting fabrics with UV-Protection. Currently, this kind of products are quite popular in the market, and our technology in UV-Protection is one of the most advanced in the textile industry. Our standard was AATCC183-2004 & AS/NZS 4399. We have many testing reports for your reference.

Major Products

Circular knitting products: Outdoor sports, Casual sports, Eco-friendly fabrics, Quick drying, Cooling, Thermal, Anti-Bacterial, Stretchable/Compression, Soft shell/Fleece, Baseball wear fabric

Company Profile

Founded in 2005, Own Way Textile Ltd. devotes its resources into design, develop and market knit fabrics for wide variety of sports and outdoor activities. Own Way's service to clients is guided by its six fundamental believes - environmental protection, innovation, professionalism, efficiency, quality, and customer service. With the rising of living standards as well as the demand for colorful, bright, soft, and functional clothing, high-quality, diverse, and versatile textiles are also the trend.

Own Way focuses its development on functional fabrics for sportswear. It continually cooperates with advanced manufacturers from different countries to gain advantage in production for name brands. Step by step, it foresees and marches forward in producing healthy and functional fabrics for slow but sure prospective demand, in improving techniques and management to optimize its reputation, and also in actively developing products which differentiate and with high-added value to enhance its ability to compete and to expand its market share.

Facing the market trend of the twenty-first century, the high-level market competition worldwide, and the ever-changing marketing environment, Own Way will continue its effort in becoming leaders in the textile industry and in fulfilling market demand with a positive and innovative attitude, honesty, and business ethics.

RMC EMB.

Major Products

Embroidery fabric, Lace, Jacquard, Tulle, Satin, Organza, Knit, Embroidery Appliques, Patches, Badge, Garment accessories, Woven Label, Rubber Badge, Button, Haberdashery, Trimming

Company Profile

In 1989, Royal Maye Chie Enterprises Inc. was formed in Tainan, Southern Taiwan, focusing on mechanized embroidery manufacturing. For the past years, RMC has made unceasing effort in introducing and developing new technology in production. In order to fulfill the growing needs of American, European, Asian and Australian markets for high value garment embellishments, RMC has become one of the trendsetters of the embroidery industry.

Embroidery, also known as "silk weaving" is one of the oldest and most elegant of the textile arts in the world. Starting with embroidery manufacturing as its core business and rooting on the embroidery culture, Royal Maye Chie group (RMC) has been seeking innovative methods to diversify embroidery technologically and artistically. Employing state-of-the-art technology, we hope to develop new cultural and commercial values for embroidery.
