 Jack Chang / Assistant Vice President  
Wendy Shih / Sales

### Major Products

Staple and Filament Knitted Fabrics, Including Polyester, Nylon, Polyester/  
Cotton, TCD with Spandex.

### Company Profile

We were founded in 1992, Taiwan (R.O.C.) as a component repair and manufacturer for dye machines. During the years, we gradually became an ODM company, blazing a trail in the industry.

With our many years of experience with dye machines, we've become experts when it comes to our machineries and fabric properties. Utilizing our vast knowledge, we set up our own dye department in 2013, redesigning the internal structures and functions to adapt to main trending fabrics in the current market. We mainly specialize in professional stretch knit fabrics along with numerous functions (moisture management, anti-uv, anti-bacterial, deodorization etc.) approved by international brands and quality control organizations around the world, we can also customize our fabrics to meet our clients demands.

Our clients include Adidas, Nike, Marks & Spencer, Under Armour, Fila, Macy's, Tek Gear, Avia, amazon, etc.

With our own knit, dye, set, brush, print machineries and lab set up in Taiwan, we have a capacity of 1,200,000kg per month. Vertical integration increases our efficiency massively. Not only are we able to provide outstanding quality, but also in the littlest of time, meeting our clients every need, demands and satisfaction.

### Major Products

Taiwan Functional Textiles: Antibacterial Textiles, Electromagnetic Shielding Textiles, Moisture Transferring and Quick Drying Textiles, Water-Vapor Permeable and Liquid-Water Impermeable Textiles, Antifungal Textiles, Ultraviolet Protective.

### Company Profile

"The Best Source for Taiwan Functional Textiles."

Taiwan Functional Textiles have been equated to premium quality. In general, the grades of functional textile are tested by the equitable laboratory according to specified requirements by the certification committee for functional and technical textiles. Meanwhile, buyers and consumers could be sure of the quality through certification and certified tags and our seal is registered in the EU, the US, Japan, mainland China and Taiwan. The Taiwan Functional Textiles certification system now applies for 20 function categories and it is moving towards becoming a bridge to global functional textiles for quality assurance.
