

# TAIWAN PAVILION

**INATEX 2019**

28-30 March 2019  
Jakarta International Expo  
Kemayoran, Jakarta, Indonesia

The Taiwan Textile Federation (TTF) was established on November 25, 1975 with government guidance and support as well as with donations from the textile industry itself.

From its inception, the principal task of the TTF has been to assist the government in bilateral textile quota negotiation and to administer the textile export quota. Over the past years, there have, however, been changes and modifications in the operations of the TTF. These have been made to assist the industry in coping with the challenges presented by the ever-changing economic and trade environment.

In recent years, TTF has aimed to provide a versatile range of services, including market promotion, industrial development, market information, and help with the improvement of design capability, production, and management, to Taiwan textile companies to ensure their continuing development, up-grading, and future prosperity.
